

PROJECT

HOUSE 79

TYPE

RENOVATION ADDITION

LOCATION

LOS ANGELES, CA

DATE

2013-CURRENT

SIZE

1500 SQ.FT.

COST

\$ 200,000

As a complete remodel / addition this project will more than double the size of the single family house on a large west L.A. lot. Combining Japanese construction with Swiss minimalism, the scheme cuts the house in half and rebuilds and doubles the back both outward and upward. Large open rooms flow to the exterior and into one another. A large central light funnel on the second floor draws the stair upward to a series of suite bedrooms each overlooking the hillside vista.

The house optimizes the existing while extending the opportunity of its sensibilities to match the qualities of the lush landscape.
